Viking Ship Museum

Km to go

Start area

Coordinates

55.65026649293945, 12.079069396242703

At the Viking Ship Museum in Roskilde, you can experience five original Viking ships from the early 1000s, found at the bottom of the fjord, where they were deliberately sunk as a blockade against enemies. Here, history comes alive: you can watch shipbuilders reconstruct Viking craftsmanship, build your own small wooden ship, and in the summer, sail in reconstructed Viking ships.

The museum is undergoing a major transformation: in 2030, a new Viking Ship Museum will open, where the ships will find a new home in a wooden building called "The Chest," which will protect them from rising sea levels and time. The surrounding area will become an open and vibrant museum plaza with a fjord view, a café, workshops, and a new coastal meadow. The iconic Viking Ship Hall will be preserved and renewed with new functions and more space for visitors.

Roskilde Cathedral and World Heritage Center

Km to go

Neutral zone

Coordinates

55.642622, 12.080449

Roskilde Cathedral is a UNESCO World Heritage site that uniquely illustrates the development of European architecture over 800 years – and is one of the earliest large brick churches in Northern Europe. The impressive Gothic cathedral was built around 1200 and houses many layers of architecture and history. What is special about the cathedral is that 40 kings and queens are buried here under one roof. The monuments and chapels reflect power, art, and faith through the centuries. In a few years, a new World Heritage Center will open in the Yellow Palace, located next to the cathedral. Here, you can delve into the church's role as a royal burial church and its groundbreaking architecture.

Egedal municipality

Mølleåen Nature Park

Coordinates

55.808052, 12.309218

Mølleåen Nature Park is a unique landscape formed by ice-age features, such as tunnels, kettle holes, lakes, and forests. The park contains various protected nature types like rich fens, marshes, meadows, and rare plants and animals. The park is traversed by the Mølleåen river, which stretches from Bastrup Lake to the Øresund. The park is also rich in cultural and historical landmarks, such as ancient pathways, burial mounds, dolmens, and the Bastrup Tower, which dates back to the 1100s. It offers one of the most impressive ice-age landscapes near Copenhagen, with remnants of ice-age movements visible throughout.

Supercycle Path Frederikssund Route C97

Coordinates

55.753047, 12.215213 (Veksø) and 55.757021, 12.202276 (Stenløse)

The Supercycle Path Frederikssund Route C97 runs across Egedal Municipality. It starts at Christiansborg in Copenhagen and ends at Frederikssund Station. The aim is to create better conditions for cyclists and offer commuters a good alternative to cars. Along the route between Veksø and Stenløse, Egedal Municipality, in cooperation with local school children, created the light installation SuperZOOkelstien. The installation promotes cycling, focuses on safety, and highlights the use of helmets. In the evening, lights illuminate the animal sculptures as cyclists pass by.

Frederikssund municipality

Princess Mary's Bridge

Km to go

214

Coordinates

55.813318, 12.068033

In 2019, Princess Mary's Bridge opened for traffic over Roskilde Fjord. The bridge was built to complement the old Crown Prince Frederik Bridge, which had become too small for the amount of traffic crossing the fjord. The bridge is named after Princess Mary, who was the crown princess at the time. The name is fitting, even though the original bridge was named after a different Crown Prince Frederik. The bridge is a high bridge, 9.5 km long, and opened to car traffic on September 30, 2019. The then crown princess herself cut the ribbon and opened the bridge.

Crown Prince Frederik's Bridge

Km to go

203

Coordinates

55.842931, 12.038755

In the old days, there was a ferry across Roskilde Fjord near Frederikssund. However, in 1868, a pontoon bridge was built, closing the ferry route. The bridge was named after Crown Prince Frederik, who later became King Frederik VIII. In 1935, a new, more solid bridge was built, which still stands today – and the name remains Crown Prince Frederik's Bridge. The bridge has two drawbridges, which are remotely controlled from the Danish Road Directorate's traffic center in Copenhagen and open when there is ship traffic to pass.

Events in Hillerød

Saturday

10:00 AM – 11:00 PM

Hillerød Slotssø Town Festival (many activities including amusement rides, food court, entertainment on stages at Posen, Torvet, Slotssøen, Søstien)

10:00 AM – 11:00 PM

Decorated bicycles as installations throughout the pedestrian streets

10:00 AM – 11:00 PM

Spot the crocheted Copenhagen Sprint bucket hats

10:00 AM – 6:00 PM

CPH Sprint fan zone with a large screen at Posen

10:00 AM – 6:00 PM

The small ferry sails on Slotssøen

10:00 AM – 6:00 PM

Large screen at Torvet

10:00 AM – 6:00 PM

The Megalippers (scout group) build this year's Midsummer bonfire at Posen (it will be sailed out on Slotssøen on Sunday)

10:00 AM – 8:00 PM

Flag Alley through the pedestrian streets

11:00 AM – 2:00 PM

Denmark's most beautiful Travalje competition on Slotssøen

1:00 PM – 1:30 PM

Parade through the town with New Orleans Jazz and about 150 athletes (from the Castle, along Slotsgade, and ending at Torvet)

**COPENHAGEN
SPRINT**

Sunday

10:00 AM – 4:00 PM

1:00 PM – 1:30 PM

Bluey & Bingo show at Posen (as part of Children's Town Festival)

Frederiksborg Castle and Castle Lake

Coordinates

55.93509731470605, 12.301272383337679

The impressive Frederiksborg Castle is the largest Renaissance complex in the Nordic countries. It was built by Christian IV but has served as a royal residence since the time of Frederick II in the latter half of the 1500s.

There has always been a close connection between the royal family and Frederiksborg. The kings frequently went hunting in Gribskov and held lavish banquets at the castle. Today, the castle is home to the National Historical Museum, which houses Denmark's national portrait gallery. From the museum, visitors can access the impressive Frederiksborg Castle Church and magnificent halls such as the Knights' Hall and the Audience Hall.

The museum's vast portrait collection features figures who have shaped Denmark's history, while large historical paintings depict key events that have contributed to the making of Denmark.

Fredensborg municipality

Fredensborg Castle

Coordinates

55.98267921021282, 12.395984204675258

Fredensborg Palace was built in the 1720s as a royal hunting and pleasure retreat for King Frederik IV, and today serves as the Danish royal family's residence in spring and autumn. Beautifully situated by Lake Esrum, the palace is surrounded by baroque gardens, forests, and meadows, and has hosted numerous royal events such as christenings, confirmations, and weddings.

The palace gardens are renowned for their avenues and sculptures, and the domed hall has famously been the setting for royal first dances, including those of Queen Margrethe and the Crown Prince couple. Over the years, distinguished guests such as Winston Churchill, Pope John Paul II, and Bill Clinton have visited the palace—heads of state traditionally etch their names into one of the palace windows.

Fredensborg is also a sanctuary, where the royal family enjoys nature and privacy. The Queen creates her artwork here and has described the palace as a place full of "joy and love." When the monarch is in residence, the Royal Life Guards are stationed at the palace, and a daily changing of the guard takes place at noon—often accompanied by music.

The palace is part of "Royal North Zealand", a region steeped in royal history and home to the National Park of the same name, covering 262 km² and including areas such as Gribskov Forest, Lake Arresø, and Lake Esrum.

Louisiana Museum of Modern Art

Coordinates

55.96973803651369, 12.543744214130992

Louisiana is Denmark's most visited museum for modern and contemporary art, attracting over 700,000 Danish and international visitors annually. With its cohesive architecture and scenic location overlooking Øresund, it is also considered one of the most beautiful museums in the world.

Since its opening in 1958, Louisiana has distinguished itself with internationally renowned exhibitions and has built an esteemed collection. Louisiana's founder, Knud W. Jensen, wanted to create a museum that was accessible to its visitors, changing the Danish relationship with visiting museums and viewing art. At the same time, Louisiana has become a model for how museums should be conceived and designed, not only in Denmark but around the world.

Many, especially foreigners, wonder about the museum's name, and the brief explanation is this: Knud W. Jensen chose to "adopt" the name from the old villa he built Louisiana around. The property was built and named in 1855 by Alexander Brun (1814–1893), an officer, court huntsman, and married to three women, all of whom were named Louise.

Allerød municipality

Start: Frederiksborgvej/Kirkeltevej

Km to go

112

Coordinates

55°53'30.5"N 12°21'05.0"E

- At the start of Frederiksborgvej, riders pass close to Tokkekøb Hegn (The Dog Forest) (55°53'16.1"N 12°21'44.5"E). Here, you'll find Ringsbjerg, the highest point of Tokkekøb Hegn at 69 meters. In the old days, charcoal burners, peat diggers, and farmers would gather here before heading to the capital to sell their goods.
- Riders cycle along Frederiksborgvej and pass Kirkehavegaard (55°52'21.8"N 12°20'44.2"E), which is Allerød's cultural and community center.
- Lillerød Church (55°52'24.7"N 12°20'44.2"E) is located near Kirkehavegaard. Lillerød Church is a medieval church that has been modernized and expanded over several generations. It includes parts of a Romanesque nave built with fieldstone and two late medieval additions of monk stone: a 14th-century porch and a western extension with a south-facing staircase, dating back to around 1500.
- Nearby is Allerød's town center (55°52'15.0"N 12°21'20.8"E), which has a solid base structure and a concentrated city center with a strong spine along M.D. Madsensvej, home to most of the town's shops.
- In the town center, new apartments are being built, along with a cultural square that will bring together various cultural activities. The square will also be home to Mungo Park – a regional theatre (55°52'08.1"N 12°21'17.7"E).

End: Nymøllevej/Skovmosen

Km to go

109

Coordinates

55°51'27.1"N 12°20'55.5"E

- Surrounded by forest (Ravnsholt Forest), riders pass Vestre Hus Børnenaturcenter (55°51'09.0"N 12°20'54.1"E). Vestre Hus Børnenaturcenter is a nature school for schools and daycare centers in Allerød Municipality. Children here can experience nature's progress in Ravnsholt Forest, either with their teachers and caregivers independently or on a guided tour with a nature guide.

Værløse Airbase – Cycling Mecca

Coordinates

55.769645, 12.320348

Værløse Airbase is a historical area of over 500 hectares. The area offers both nature experiences and cultural history. The former airbase, which today serves as a popular recreational area, contains open heathland, activity landscapes, and several historical buildings like Hangar 2, which now functions as an exhibition center for the history of the airbase. The area is ideal for activities such as cycling, skateboarding, and flying, and visitors can experience both rich military history and scenic surroundings. The airbase is a popular training spot for several professional cyclists, including Tour de France winner Jonas Vingegaard and former Danish time trial champion Kasper Asgreen, who regularly visit for training sessions.

Farum Lake

Coordinates

55.803353, 12.358811

Farum Lake is a scenic gem in the Mølleådal valley, surrounded by forests, protected wetlands, and historical remnants from ancient times. The lake is home to a rich birdlife, including species like the tufted duck, the common scoter, and the marsh harrier. Farum Lake is a bird protection and habitat area, and the variation in nature makes a walk around the lake a year-round experience.

**COPENHAGEN
SPRINT**

Ballerup municipality

Lautrup Business Park

Coordinates

55°44'03.0"N 12°23'21.7"E

Lautrup Business Park is the largest business park in the municipality and is known as Denmark's answer to Silicon Valley. The park houses Denmark's largest concentration of technology companies and has developed since the 1970s into one of Denmark's most significant business areas. Major companies such as Atea, Tryg, Siemens, and Topdanmark are based here. Ballerup Municipality has more jobs than residents, with around 54,000 jobs and approximately 52,939 residents.

Ballerup Super Arena

Coordinates

55°43'16.8"N 12°22'08.5"E

Ballerup Super Arena is an indoor arena with a permanent 250-meter wooden cycling track that attracts both national and international cycling events. The arena was inaugurated in 2001 as a result of a collaboration between Ballerup Municipality, Danish Bicycle Club, Team Denmark, and local businesses. In addition to being a hub for elite sports, Ballerup Super Arena hosts a variety of cycling events throughout the year. From amateur tournaments to professional races, the arena is a vibrant center for cycling activity. The arena has hosted the Track Cycling World Championships in 2002, 2010, and most recently in 2024.

The arena also hosts other sports, with facilities for badminton, handball, indoor football, and athletics. Additionally, concerts and flea markets are held here.

Facts

- Ballerup Super Arena is approved for a total of 9,200 spectators.
- The arena floor area is 3,690 m². It can accommodate 5,000 standing or 2,800 seated spectators.
- The stands hold 3,700 seated spectators. The total maximum seating capacity is 6,500.

Rødovre municipality

Vestvolden

Coordinates

55.67798669713278, 12.428246139534044

Today, the 14.2 km-long Vestvold stretches from Utterslev Mose through Copenhagen, Rødovre, Brøndby, and Hvidovre municipalities to the beach meadows of Avedøre. The fortification is fully protected, both as a historical monument and for its biological and natural values, and it functions as an integrated part of the Greater Copenhagen area's recreational and green spaces.

Around the Historical Wall, near the Artillery Magazine in Rødovre, the vegetation is kept low, and the buildings along the stretch have been beautifully restored. The area is perfect for exploring and getting a sense of how Vestvolden looked when it was used as a defensive structure.

Damhustorvet

Coordinates

55.672542878729274, 12.473647901200337

Damhustorvet is a traffic hub where many people pass through daily on their way to and from home. The square has also been a trading place and a meeting point for many years, offering space for rest and socializing. The square underwent renovation in 2018. Here, the artwork 'Gate of Colours' was erected. The piece consists of two glowing columns, symbolizing the city's gate—the gateway to the city's life in all its diversity and color.

Across from Damhustorvet lies Damhuskroen. The inn's history dates back to the first quarter of the 1600s, when Christian IV granted permission to build a small guardhouse at the dam over Damhussøen. In 1682, an inn first appeared in the description of Rødovre—at that time called Langvejs Damhus.

Frederiksberg municipality

Copenhagen Zoo

Coordinates

55°40'22"N 12°31'17"Ø

Copenhagen Zoo, or Zoologisk Have in Copenhagen, spans 11 hectares and is one of Europe's oldest zoological gardens. It is located in Frederiksberg, along Roskildevej at Valby Bakke.

Copenhagen Zoo employs 181 full-time staff and attracts around 1.3 million visitors annually. There are over 3,500 animals representing 227 species at the zoo. Copenhagen Zoo was founded by Niels Kjørnbølling in 1859.

The first animals that visitors could see when the zoo opened in 1859 included eagles, chickens, ducks, owls, rabbits, a fox, a seal in a bathtub, and a turtle in a bucket. In 1901, 25 Indian men, women, and children were showcased in an exhibition where visitors could observe their daily life around a palm hut. They crafted handicrafts, demonstrated hunting tools, and performed shows and magic tricks several times a day.

The elephants and pandas in Copenhagen Zoo are among the zoo's most famous residents. The 4,000 m² panda enclosure was completed in 2019 and was designed by architects Bjarke Ingels and David Zahle. The residents are Xing Er and Mao Sun.

Frederiksberg Allé

Coordinates

55°40'55.28"N 12°32'5.51"Ø

Frederiksberg Allé is a historic boulevard that stretches from Åboulevard to Gammel Kongevej and was constructed in the 1700s as part of Frederiksberg's development. The avenue is known for its green character and the beautiful buildings along it. It is home to several theaters, cafés, and historic buildings like Betty Nansen Theatre and Aveny-T. Until 1862, Falkoner Allé was closed to private traffic, but today it is a central area for both locals and visitors and forms a connection between Frederiksberg Runddel and the surrounding neighborhoods.
